Confidential Pupil Data Sheet

You may be aware that from 25th May 2018, the rules around data protection changed. The 'General Data Protection Regulation' (GDPR) changed as to how we can use your child's personal data and keep it safe, and strengthen your rights over your own data.

The point of this is to make sure sensitive or private information about yourselves and your children stays safe. Whilst it is similar to the current Data Protection Act in many ways, there are a few differences, so we need to make a few changes at the school in order to ensure we remain compliant.

Under data protection law, individuals have a right to be informed about how the Federation uses any personal data that we hold about them. We comply with this right by providing 'privacy notices' (sometimes called 'fair processing notices') to individuals where we are processing their personal data. We may also hold data about pupils that we have received from other organisations, including other schools, local authorities and the Department for Education.

We keep personal information about pupils while they are attending our school. We may also keep it beyond their attendance at our school if this is necessary in order to comply with our legal obligations.

We do not share information about pupils with any third party without consent unless the law and our policies allow us to do so. Where it is legally required or necessary (and it complies with data protection law) we may share personal information about pupils.

All parents and carers will receive a covering letter, a copy of the Parent/Carer Privacy Notice and GDPR Policy with this pupil data sheet.

When filming or photography is carried out by the news media, children will only be named if there is a particular reason to do so (e.g. they have won a prize) and home addresses will never be given out. Images that might cause embarrassment or distress will not be used nor will images be associated with material on issues that are sensitive.
